Dear Mr. John Martindale!

We are writing to express our sincerest appreciation for your contribution to the recuperation of the children from Brest Region. It is through the enthusiasm of the individuals like you that the children from the areas affected by the Chernobyl fallout have been able to come to your country and improve their health.

We are deeply grateful for the support and generosity of the Wessex Link. The dental and optical check-ups make a big difference to us too. We highly appreciate your gift to the children – the spare pairs of glasses. Apart from the medical benefits, the holiday provided the children with the chance to get out of the country and see a bit more of the world. The children were given the chance to enjoy wonderful activities and to learn about the culture of your country.

We are grateful to the host families for their commitment and goodwill, for receiving our children into warm and loving home environments. We are also grateful to everyone who is involved with the charity, who helps and supports activities designed to enhance the children's health.

Your dedication to organizing recuperative holidays for children from Chernobyl-affected areas is invaluable. Our children are very fortunate to have been able to visit your place and learn the people from your charity. We want to express our gratitude for all you have done. May the kindness and warmth you have given away return to you.

We hope we may continue our cooperation in improving Belarusian children's health in the future.

Yours sincerely,

Chairman of Brest Region
Education Department

Y.N. Prosmysky
